Experience

Web Developer Intern

March 2020 - May 2021

Information Technology Agency, City of Los Angeles

- Planned, built, and deployed static and dynamic websites using React.js, HTML5/CSS3/Javascript, and Drupal 8 CMS.
- Designed, implemented, and managed an interactive design system using Pattern Lab.
- Worked closely with stakeholders to develop websites with user-centered features.
- Meetings on daily basis with developers and designers for discussions on design and technology implementations, application maintenance, and work distribution.

Customer Support Engineer Intern

September 2015 - March 2016

Information Technology Agency, City of Los Angeles

- Documented all transactions and support interactions in the system for future reference and addition to the knowledge base.
- Assisted customers with troubleshooting issues encountered while using hardware or software, providing actionable tips to resolve problems.
- Worked directly with a help desk ticket system to effectively manage problems and communicate solutions with clientele.

Education

General Assembly

March 2021 - May 2021

Software Engineer Fellow

- Successfully completed 420+ hours of expert-led instruction in hands-on learning of software engineering fundamentals and the industry's most in-demand technologies

University of California, Los Angeles, California

December 2019

Bachelor of Arts, Economics
